6.)

Tailor: What can I do for you, sir?

Customer: I want a woollen suit made, and this is the suit length I've brought.

Tailor: Yes sir. May I take your measurement?

Customer: Sure, I'd like a loose fitting.

Tailor: O.K sir.

Customer: Now, how long will it take to get the suit ready?

Tailor: About two weeks. It takes longer at this time of the year because of wedding season, you know.

Customer: That will be all right. But I'd would like to have it before the end of this month.

Tailor: All right sir.

Dear MDwade,

I am very glad to know that you have won the award on the International GameDev competition. ~~As, I k~~ Are you fine? Is aunt fine? Is everything ok in Alabama? I am fine here too. As I heard that you always eat junk food. I am writing this letter on 'Advantages on Home-made food'.

Home made food is very advantageous. It saves our money and time. As, we don't have to go far away on search of hotels or restaurants. It also increases our family bonding as all the family members stay together and eat. It helps to improve our cooking skills if we cook the food ourselves. We can add all the healthy ingredients in our food and we can avoid the allergic foods which can help in avoiding food poisoning and other diseases. We can maintain the appropriate proportion of food which helps us to eat a balanced diet, too. It also helps in the peacefulness of mind as it ensures people not to

go outside their home. It can be a life-saver during flus and pandemics like the covid-19 pandemic going on. It has saved alot of peoples life as it doesnot contain any harmful effects and it is not processed food. If we eat homemade food, we can cultivate good and healthy eating habits. It helps us to be strong and diseases free, too. For eg: If I eat outside food always, I will have a habit of it and it will make me more weaker than before as it has harmful effects but if I will eat homemade food, I will be more stronger than before day by day.

So, I would like conclude saying "Homemade food is the best type of food". And I hope you will be replying this letter soon.

Your Loving Friend,
Anuj Sapkota

"Disadvantages of Online Class"

②
→ The Covid-19 pandemic has affected the various aspects of life like going to schools and offices. For Due to this, the schools have started the online classes for their betterment. It is being used as ~~by utilization by~~ utilized by some students and being criticized by some too. It is the only way for schools to keep giving knowledge to the students so it should be used very effectively.

It is very hard for students as they can face eye problems and headache after seeing the screen continuously for 4-5 hours. Not only everyone have very good internet. So, the students with poor internet internet-connection cannot get the knowledge that they got in real schools as they get disconnected time-to-time. And, if there is a power cut in the teacher's place, then the students cant study without the teacher. It can create lack of communication skills in the students as they have little or no interaction. The students who donot want to read can disturb the students willing to read.

~~As, Nelson Mandela there~~ There is a thought, "Education is accessible to all." But in the online classes, the people

Subject: English

Who are from village and ^{can} are not afford internet are not accessible to read. This is one of the major disadvantages of online classes. Some students might have interest studying practically more than theoretically. But due to the online classes, teacher have to teach theoretically, which can make students feel bored. And, if there are online tests and exams, the students who are tech-savvy can do cheating which forces teachers to do open-book examinations which can make students dependent on books. ~~can~~ The students also feel have the sense of isolation due to which many of them leave studying. So, the students should have a free mind. This can also decrease the creativity in students which has a major impact in their life. As there are many devices in the students ~~At~~ house, they might want to play games in the ~~cat~~ class, etc. So, it will be tough to bind an environment to study if there are online classes.

At last, I believe that despite having so many disadvantages, online classes have many advantages, too.
